PERFECT CHOICE- sodium fluoride and hydrofluoric acid gel
Young Dental Manufacturing Co 1, LLC.

Disclaimer: This drug has not been found by FDA to be safe and effective, and this labeling has not been approved by FDA. For further information about unapproved drugs, click here.

Indications and Usage:

Topical application of APF gel is indicated in the prevention of dental caries.

Warning:

Keep out of reach of children. Do not swallow.
If swallowed during treatment, administer milk, limewater, or antacid. If larger dose is ingested (more than 1/4 ounce), contact poison control and immediately seek medical help.

Precautions:

For professional use only. Repeated use may cause dulling of porcelain and ceramic restorations.

Adverse reactions:

Developing teeth of children under age 6 may become permanently discolored if excessive amounts are repeatedly swallowed. Individuals hypersensitive to fluoride may have an adverse reaction.

Dosage and Administration:

After thorough prophylaxis, place gel in applicator tray (not more than 1/3 full). Throughly air-dry teeth and insert tray(s) in mouth. Gel may also be swab applied. Instruct patient to bite down slightly but firmly for one to four minutes. A slight chewing motion enhances coverage interproximally. Remove tray(s) and have patient expectorate excess gel. Instruct patient not to eat, drink or rinse for at least 30 minutes.

How Supplied:

A gel, one bottle contains up to 68 individual applications. Store at controlled room temperature 20°-25°C (68°-77°F).

Do not allow to freeze.

Active Ingredients:

1.23% w/w Fluoride Ion (0.79% from Sodium Fluoride and 0.44% from Hydrogen Fluoride) in 0.1 Molar Phosphoric Acid

Contains: FD&C Red #40
