CARR & DAY & MARTIN KILLITCH 25% W/V CUTANEOUS EMULSION

Active Ingredient: Benzyl Benzoate

25% w/v

Vm 01974/4003

- Proven to prevent sweet itch when used before symptoms appear
- Treats and soothes irritated areas

DIRECTIONS FOR USE

Cutaneous liquid for treatment of the condition known as sweet itch in horses and ponies. Apply to all affected areas by rubbing in with fingers or soft cloth as soon as sweet itch is diagnosed and for the remaining part of the sweet itch season (March-September). Initial application of Killitch (75 ml) should be made twice daily, reducing to once daily and then 3-4 times a week as the irritation lessens. All affected areas should be kept clean by shampooing and rinsing well at least once a week. After shampooing or heavy exercise, re-apply to ensure adequate protection. With horses which are known to suffer from sweet itch, it is recommended that Killitch is applied in the early spring before symptoms become evident, so that the condition may never take a hold.

SHAKE BOTTLE BEFORE USE. Protective rubber gloves should be worn when using this cutaneous solution. Using this product may cause skin irritation in sensitive individuals. Wash hands thoroughly after use. In the case of eye or skin contact, wash the affected area immediately with plenty of water. If irritation occurs, seek medical advice showing the product label.

FOR EXTERNAL USE ONLY. HARMFUL IF SWALLOWED. DO NOT INDUCE VOMITING. seek urgent medical attention showing the product label to the doctor or nurse. Do not eat, drink, or smoke while using this product. Store in tightly closed, original container. Do not store above 25 deg C. Protect from frost. Protect from direct sunlight.

Not to be used on horses intended for human consumption. Treated horses may never be slaughtered for human consumption. The horse must have been declared as not intended for human consumption under national horse passport legislation. Keep out of reach of children. Avoid contact with eyes. Dispose of empty packaging and any remaining product in the household refuse. For animal treatment only.

Avoid contact with eyes and mucous membranes. If signs of disease persist or appear, consult a veterinary surgeon.
