For Prescription Compounding Only

Tramapap Kit

Tramadol HCl and Acetaminophen Compound Kit

Description

Each Tramapap Kit is comprised of 15 grams of tramadol hydrochloride powder and 75 grams of acetaminophen powder.

Certificate of Analysis on File

Tramapap Kit also contains 23.25 grams of Lactose Monohydrate (Spray dried) powder and 1.5 grams of riboflavin USP powder. When compounded, the final product provides a homogeneous product of 300 capsules each capsule containing 50mg of tramadol and 250mg of acetaminophen.

Equipment  
Required supplies needed to compound this kit  
Equipment

<b>Item</b>	<b>Quantity</b>
Tramadol HCl (Included)	15 grams
Acetaminophen (Included)	75 grams
Lactose Monohydrate Spray Dried Powder ( Included)	23.25 grams
Riboflavin Powder (Included)	1.5 grams
Red/Blue #1 Capsules ( Required Not Included)	300 Capsules

Equipment  
Recommended supplies not included in this kit  
Equipment

<b>Item</b>	<b>Quantity</b>
16 oz Glass Mortar and Pestle	1 each
300 Capsule Machine Number 2 Notch	1
Scraper ( Recommended Not Included)	1
Tamper (Recommended Not Included)	1
Capsule Locker (Recommended Not Included)	1

**Directions**

1. Using a 16 oz mortar and pestle triturate powders well to reduce particle size until uniform.
  2. Using a 300 capsule machine encapsulate triturate powder mixture into number 1 red/blue capsules
- Prior to compounding, store Tramadol Kit at room temperature. Store the final product at room temperature. Final product for oral use only. Keep out the reach of children. Compounded product, as dispensed, is stable for at least 180 days or the time remaining on the expiration date of any given ingredient, which ever is shorter.

## Tramapap Kit

### Tramadol HCl and Acetaminophen Compound Kit

#### **DESCRIPTION**
