THERABLOAT DRENCH - poloxalene concentrate

Pfizer Animal Health

For treatment of legume (alfalfa, clover) bloat in cattle For veterinary use only

2 fl oz (59.1 mL)

NADA #39-729, Approved by FDA

Each fl oz (approx. 30 mL) contains 25 grams of poloxalene.

INDICATIONS

Therabloat Drench Concentrate will relieve legume bloat in cattle within minutes when used as directed. For best results administer at the earliest sign of bloat. If bloat has progressed in its severity to the degree that the animal is down, other means of treatment also are recommended (rumenotomy-rumen puncture). For oral use only—not for injection. May be used in lactating animals.

DOSAGE

For animals up to 500 lb, use 1 fl oz of Drench Concentrate. For animals over 500 lb, use 2 fl oz of Drench Concentrate.

DIRECTIONS FOR PREPARING DRENCH

Add the proper amount of concentrate to 1 pint of water. Mix well and administer using a drenching bottle. If a stomach tube is to be used, add concentrate to 1 gallon of water.

CAUTION

Keep out of reach of children.

Store at Controlled Room Temperature 15°-30°C (59°-86°F)
