##### **Purpose**

Acne Treatment

##### **Uses**

for the treatment of acne

##### **Warnings**

###### **For external use only**

- **Avoid contact with the eyes.**

Before using for the first time, apply a small amount to the affected area for 3 days. If no discomfort occurs, then follow directions for use. Using other topical acne medications at the same time or immediately following use of this product may increase dryness or irritation of the skin. If this occurs, only one medication should be used unless directed by a doctor.

**Keep out of reach of children.** If product is swallowed, get medical help or contact a Poison Control Center right away.

##### **Directions**

Cleanse the skin thoroughly before applying medication. Cover the entire affected area with a thin layer one to three times daily. If bothersome dryness or peeling occurs, reduce application to once a day or every other day.
