**ThyroVet™ Equine
(Levothyroxine Sodium USP 0.22%)
Powder**

A Palatable Supplement for the Correction of Conditions Associated with Hypothyroidism in Horses and Ponies

For animal use only.

Keep out of reach of children.

CAUTION: Federal law restricts this drug to use by or on the order of a licensed veterinarian.

INDICATIONS:

For use in horses and ponies for correction of conditions associated with low circulating thyroid hormone (hypothyroidism).

DOSAGE:

Doses should be individualized and animals should be monitored daily for clinical signs of hyperthyroidism or hypersensitivity. Suggested initial doses are 1-10 mg levothyroxine sodium (T₄)/100 lb. body weight (2-20 mg/100 kg) once per day or in divided doses. Response to the administration of ThyroVet™ Equine Powder should be evaluated clinically every week until an adequate maintenance dose is established. In most horses, this is usually in the range of 35 to 100 mg total daily dose of T₄ (1-3 level tablespoonfuls ThyroVet™ Equine Powder).

ACTIVE INGREDIENTS:

Each pound (453.6 g) contains:

Levothyroxine Sodium USP 0.22% (1.0 g)
One level teaspoon contains 12 mg of T₄
One level tablespoon contains 36 mg of T₄

WARNING:

Administer with caution to animals with clinically significant heart disease, hypertension, or other complications for which a sharply increased metabolic rate might prove

hazardous. Use in pregnant mares has not been evaluated.

STORAGE:

Store at controlled room temperature between 15°- 30°C (59°-86°F). Keep container tightly closed when not in use.

Net Contents:

1 lb (453.6 grams) V1 510261
