Cramergesic Ointment

Drug Facts

Active Ingredients

Menthol 1.9%

Methyl Salicylate 13.7%

Purpose

Counterirritant

Uses

For the temporary relief of minor aches and pains of muscles and joints associated with strains, sprains, bruises, simple backache, and arthritis. Combined with stretching and calisthenics, Cramergesic assists in the warm-up process, especially in cool, damp weather. Do not bandage tightly.

Warnings

For external use only.

Use only as directed. In case of accidental ingestion, seek professional assistance or contact a Poison Control Center immediately. Do not apply to wounds or damaged skin. Avoid contact with the eyes. If condition worsens, or if the symptoms persist for more than 7 days, or clear up and occur again within a few days, discontinue use and consult a doctor. Consult a doctor before administering to children, including teenagers, with chicken pox or flu.

Keep this and all drugs out of the reach of children

to avoid accidental poisoning.

Directions

Gently massage into painful area. Adults and children 6 years of age and older: apply to affected area not more than 3 - 4 times daily. Children under 6 years of age: consult a doctor. To apply Cramergesic pack: spread 1/8 " layer of Cramergesic over area. Do not bandage tightly.

Other information

Discontinue use if excessive irritation of skin develops. Use with caution on fair skin. Store in a cool, dry place with cap closed tightly.

Inactive Ingredients

Lanolin, Paraffin, Petrolatum
