**APF Gel - Grape**

**INDICATIONS AND USAGE:**

Topical application of APF gel is indicated in the prevention of dental caries.

**Warning:**

Keep out of reach of children. Do not swallow.

If swallowed during treatment, administer milk, limewater, or antacid. If larger dose is ingested (more than 1/4 ounce), contact poison control and immediately seek medical help. Do not use in patients with an allergy to fluoride.

**Precautions:**

For professional use only. This product is not intended for home or unsupervised consumer use. Repeated use may cause dulling of porcelain and ceramic restorations.

**Adverse reactions:**

Developing teeth of children under age 6 may become permanently discolored if excessive amounts are repeatedly swallowed. Individuals hypersensitive to fluoride may have an adverse reaction.

**DOSAGE AND ADMINISTRATION:**

After thorough prophylaxis, place gel in applicator tray (not more than 1/3 full). Thoroughly air-dry teeth and insert tray(s) in mouth. Gel may also be swab applied. Instruct patient to bite down slightly but firmly for one to four minutes. A slight chewing motion enhances coverage interproximally. Remove tray(s) and have patient expectorate excess gel. Instruct patient not to eat, drink or rinse for at least 30 minutes.

**HOW SUPPLIED:**

A thixotropic gel, one bottle contains up to 68 individual applications. Store at controlled room temperature 20°- 25°C (68°-77°F).

Do not allow to freeze.

**ACTIVE INGREDIENTS:**

1.23% w/w Fluoride Ion (0.79% from Sodium Fluoride and 0.44% from Hydrogen Fluoride) in 0.1 Molar Phosphoric Acid.

**Contains:** FD&C Red #40 and FD&C Blue #1
