

SALICYLIC ACID- wart remover liquid liquid
CVS Pharmacy

CVS Wart Remover Liquid

Active ingredient

Salicylic acid 17%w/w

Purpose

Wart Remover

Use

- for the removal of common and plantar warts. The common wart is easily recognized by the rough 'cauliflower-like' appearance of the surface. The plantar wart exists only on the bottom of the foot and interrupts footprint pattern.

For external use only.

Flammable

- keep away from fire or flame
- **cap bottle tightly** and store at room temperature away heat

Do not use

- if you are a diabetic or have poor blood circulation, except under the advice and supervision of a doctor or podiatrist
- irritated, infected or reddened skin
- genital warts and warts on the face
- moles, birthmarks and warts with hair growing from them
- mucous membranes

When using this product

- avoid contact with eyes. If product gets into the eyes, flush with water for 15 minutes
- avoid inhaling vapors

Stop use and ask doctor if

discomfort persists

Keep out of reach of children.

If swallowed, get medical help or contact a Poison Control Center right away.

Directions

- wash affected area, may soak wart in warm water for 5 minutes
- dry area thoroughly
- apply small amount of wart remover with applicator to sufficiently cover each wart
- let dry and repeat this procedure once or twice daily until wart is removed for up to 12 weeks

Other information

store between 20°C to 30°C (68°F to 86°F)

Inactive ingredients

camphor, castor oil, ethanol, ethyl ether, nitrocellulose
