-----

**INDICATIONS AND USAGE**

**PRE-USE:** Prior to applying KC Oto-Pack™, after examining the dog or cat, and preferably doing cytology, clean and dry the ear canal using GlycoZoo™ Otic.

**DIRECTIONS:** Shake or stir well, then draw 2-5 mL or more of KC Oto-Pack, depending upon size of pet, into a clean (feeding) syringe. Insert tip of syringe into ear canal and apply product by pushing the plunger. KC Oto-Pack will begin to thicken as it warms to the pet's body temperature. Rub ears and prevent head shaking for about a minute to allow product to settle into ear canal and totally thicken. Take precautions to avoid introduction of contaminants.

KC Oto-Pack aids in the treatment of otitis externa and ear itching due to yeast infections, and does not need to be removed. Reapply as needed every 7 days.

**WARNINGS AND PRECAUTIONS**

**CAUTION:** Federal law restricts this drug to use by or on the order of a licensed veterinarian. Avoid contact with eyes. For dog and cat topical use only. Keep out of reach of children. See insert for more information.

**DESCRIPTION**

**ACTIVE INGREDIENTS:** 1.0% Hydrocortisone, 0.15% Ketoconazole

**INACTIVE INGREDIENTS:** Water, Poloxamer 407, Propylene Glycol, Glycolic Acid, Iodopropynyl Butylcarbamate
