### **Usage Directions Teat irritation and chapping Active Ingredient**

1 % IODINE POST-MILKING TEAT DIP OR SPRAY

# USAGE DIRECTIONS POST-DIPPING/SPRAYING:

Dip/spray teats with undiluted product immediately after milking. Allow to air dry. Replace the solution if it becomes visibly dirty. With freshening cows, begin dipping teats twice daily for about 10 days before calving. For dry cows, dip/spray teats once a day for several days following the last milking. During cold weather, do not turn out cows until teats are dry to prevent chapping and freezing. If necessary, wipe dry with a single service towel.

**UDDER WASH:** To avoid contamination of milk, wash teats with this product diluted at 1 oz. (30 ml) per 2 gallons (8 L) of lukewarm water. Then dry each cow's udder and teats with individual clean towels.

### DO NOT USE THIS PRODUCT FOR CLEANING AND/OR SANITIZING EQUIPMENT.

**IMPORTANT: TEAT IRRITATION OR CHAPPING:** Teat dips have the potential to cause irritation of a cow's teats or milker's hands individual tolerance to a particular formulation as well as other factors (dry or cold weather, improper teat dip application, bedding quality, milking equipment, etc.) may also affect teat condition. If you observe abnormal irritation or chapping, discontinue and use and call the technical service department at 1-800-225-3832, or contact your dealer.

**ACTIVE INGREDIENTS:** Nonylphenoxypolyethoxy (12 moles EO) ethanol-iodine complex providing 1.0% titratable iodine (10.000 mg/L) Contains 10% skin conditioners.

### Caution First Aid Storage-Spillage

CAUTION – KEEP OUT OF THE REACH OF CHILDREN
HARMFUL IF SWALLOWED – HARMFUL IF INHALED – CAUSES EYE IRRITATION
