#### CHEM-TREC EMERGENCY NUMBER 1-800-424-9300

### Not For Human Use

### Additional Information on Material Safety Data Sheet

## **GENERAL INSTRUCTIONS**

- Use at full strength. (Do not dilute.)
- Do not use **Della One Plus** for cleaning or sanitizing equipment.
- Dip solution should be changed if it becomes visibly dirty, if sediment is present, or if the amber color noticeably fades.
- Do not pour used teat dip back into the original container.
- Thoroughly clean and sanitize teat dip foaming cup before each milking. Use fresh teat dip for each milking.
- If product is frozen, thaw completely and shake well before use.

### **PRE-DIPPING**

- After teats have been properly cleaned, dip each teat with an approved DeLaval teat dip.
- Allow product to stay on tests 15 to 30 seconds, then wipe dry with a clean single-service cloth or paper towel.
- Examine each quarter with strip cup before applying milking machine.

#### **POST-DIPPING**

- Immediately after removing milking unit, dip teats with **Della One Plus** teat dip. Do not wipe.
- While cow is being dried off, dip teats in **Della One Plus** for several days following milking.
- If outside temperature is below freezing, allow DeLaval Prima Teat dip to air-dry on teats before cow leaves the parlor; or allow teat dip to remain on teats for one minute, then dry teats with a single service paper towel. Failure to follow these directions may result in frozen teats and injured animals.
