DIRECTIONS:

Consult your Ecolab representative for specific use instructions and recommended dispensing equipment.

Iodine Teat Dip Concentrate

LEGEND CONCENTRATE MUST BE DILUTED BEFORE USE

DO NOT MIX WITH ANYTHING BUT COOL, POTABLE WATER

FOR USE ONLY IN A DISPENSING SYSTEM RECOMMENDED BY ECOLAB

Dilution Parameter: A dilute solution of a 1% iodine teat dip will consist of 3 parts potable water and 1 part Legend

Concentrate by volume.

IMPORTANT: Never use concentrated product on teats. Once concentrated teat dip product has been properly diluted, do

not further dilute with water or mix with any other teat dips. If product in dip cup becomes visibly dirty, discard contents

and replenish with fresh product. Do not reuse or return any unused product to the original container. Udder Prep: When using an udder wash step before milking, make sure to wash teats with appropriate

udder wash

solution using proper cleaning procedures. Teats should then be dried with single-service towels.

Application of Diluted Legend Concentrate

Directions for Teat Dipping

Pre-Milk Dipping: Before each cow is milked, and using fresh Legend Concentrate, dip each teat full-length into the teat

dip cup. Wipe teats after dipping using single-service towels to avoid contamination of milk.

Post-Milk Dipping: Using fresh Legend Concentrate, dip each teat full-length into the teat dip cup. Do not wipe. Allow to

air dry. Do not turn cows out in freezing weather until the product is completely dry.

Directions for Teat Spraying

Pre-Milk Spraying: Before each cow is milked, and using fresh Legend Concentrate, spray entire teat. Wipe teats after

dipping using single-service towels to avoid contamination of milk.

Post-Milk Spraying: Using fresh Legend Concentrate, spray entire teat immediately after each milking. Do not wipe. Allow

to air dry. Do not turn cows out in freezing weather until the product is completely dry.

Expanded Usage: When freshening cows, begin dipping teats twice daily for about 10 days before calving.

PRECAUTION: Legend Concentrate is not intended to cure or help the healing of chapped or irritated teats. As with

any germicide, irritation or sensitization may occur in sensitive animals. In case of teat irritation or chapping, have the

condition examined and, if necessary, treated by a veterinarian.

NOTE: Use blended Legend Concentrate within six (6) months of blended date.
