

NEOVA COMPLEX HQ PLUS- hydroquinone emulsion
PhotoMedex, Inc.

Disclaimer: This drug has not been found by FDA to be safe and effective, and this labeling has not been approved by FDA. For further information about unapproved drugs, click here.

Neova Complex HQ Plus - Hydroquinone 4%

Complex HQ Plus is indicated for the gradual lightening of hyperpigmented skin conditions such as chloasma, melasma, freckles, senile lentigenes, and other unwanted areas of melanin hyperpigmentation.

DIRECTIONS:

Apply a thin layer on the skin surface in the affected areas twice a day or as directed by physician. Use of this product should be discontinued after 3 months of treatment if no improvement is observed. The lightening effect may not be noticeable when used on very dark skin. Sun exposure should be avoided. DNA Damage Control [EVERYDAY BROAD SPECTRUM SPF 44] or other broad spectrum sunblock or protective clothing should be used to prevent reoccurring hyperpigmentation.

ACTIVE INGREDIENT:

Hydroquinone, 4%

INACTIVE INGREDIENTS:

Ascorbic Acid, Butylated Hydroxytoluene, Cetyl Alcohol, Edetate Disodium, Fragrance, Glycerin, Glycolic Acid, Methylparaben, Propylparaben, Purified Water, Sodium Lauryl Sulfate, Sodium Metabisulfite, Stearyl Alcohol, Vitamin E Acetate.

WARNINGS:

Avoid contact with eyes. Some users may experience mild skin irritation. If skin irritation becomes severe, stop use and consult a physician. In case of accidental ingestion, call a physician or seek a Poison Control Center immediately. Children under 12 years of age: Do not use unless directed by a physician.

FOR EXTERNAL USE ONLY.

KEEP THIS AND ALL DRUGS OUT OF REACH OF CHILDREN.
