CORID- amprolium solution Huvepharma, Inc

CORID® (amprolium)

9.6% Oral Solution Coccidiostat

INDICATIONS FOR USE: An aid in the treatment and prevention of coccidiosis caused by

Eimeria bovis and E. zurnii in calves. For a satisfactory diagnosis a microscopic examination

of the feces should be done before treatment. When treating outbreaks, drug should be administered promptly after diagnosis is determined.

DOSAGE AND ADMINISTRATION:

5-Day Treatment Protocol

21-Day Prevention

Protocol

Daily Dosage: 10 mg amprolium/kg

(10 mg per 2.2 lb body weight)

Daily Dosage: 5 mg amprolium/kg

(5 mg per 2.2 lb body weight)

USE DIRECTIONS: There are **96 mg** of amprolium in every **1 mL** of CORID 9.6% Solution.

1 fl oz = 29.57 mL

8 fl oz = 1/2 pint (236.56 mL)

1 fl oz = 2 measuring tablespoons

16 fl oz = 1 pint (473.12 mL)

IN DRINKING WATER

Mix CORID daily with fresh drinking water.

5-DAY TREATMENT: Add CORID 9.6% Oral Solution to drinking water at the rate of 16 fl

oz/100 gal. At the usual rate of water consumption this will provide an intake of approximately 10 mg amprolium/kg (2.2 lb) body weight. Offer this solution as the only source

of water for 5 days. Use on a herd basis only; when one or more calves show signs of coccidiosis, it is likely that the rest of the group has been exposed, and all calves in the group

should be treated.

21-DAY PREVENTION: During periods of exposure or when experience indicates that coccidiosis is likely to be a hazard, add CORID 9.6% Oral Solution to drinking water at the rate of

8 fl oz/100 gal. At usual rates of water consumption this will provide an intake of approximately 5 mg amprolium/kg (2.2 lb) body weight. Offer this solution as the only source of water for 21 days.

® CORID is a registered trademark of Huvepharma EOOD. Lot Number and Expiration Date are located on shoulder of bottle.

AS A DRENCH

CORID drench solutions may be stored in a clean, closed, labeled container for up to

3 days.

5-DAY TREATMENT: Add 3 fl oz CORID 9.6% Oral Solution to 1 pt of water and, with a dose

syringe, give 1 fl oz of this drench solution for each 100 lb (45 kg) body weight. This will provide

a dose of approximately 10 mg amprolium/kg (2.2 lb) body weight. Give daily for 5 days. Use

on a herd basis only; when one or more calves show signs of coccidiosis, it is likely that the rest

of the group has been exposed, and all calves in the group should be treated.

21-DAY PREVENTION: During periods of exposure or when experience indicates that coccidiosis

is likely to be a hazard, add 1 1/2 fl oz of CORID 9.6% Oral Solution to 1 pt of water and, with a

dose syringe, give 1 fl oz of this drench solution for each 100 lb (45 kg) body weight. This will

provide a dose of approximately 5 mg amprolium/kg (2.2 lb) body weight. Give daily for 21

days.

Use as the sole source of amprolium.

WITHDRAL PERIODS AND RESIDUE WARNINGS: Withdraw 24 hours before slaughter. A withdrawal period has

not been established for this product in pre-ruminating calves. Do not use in calves to be processed for veal.

USER SAFETY WARNINGS: NOT FOR HUMAN USE. Keep this and all drugs out of the reach of children.

Contact Huvepharma Inc. at 1-877-994-4883 or http://www.huvepharma.us. For additional information

about reporting side effects for animal drugs, contact FDA at 1-888-FDA-VETS or http://www.fda.gov/reportanimalae.

PRECAUTIONS: FOR ORAL USE IN ANIMALS ONLY. MAY CAUSE EYE IRRITATION. For irritation, flush with

plenty of water; get medical attention.

STORAGE: Store between 5°-25°C (41°-7°F) with brief excursions to 40°C.

Benzoic acid 0.1% added as preservative.
