**UDDERgold® DRY**

**Ingredients:** Ethanol, Ethyl Acetate,  
Water, D&C Yellow 8,  
Polyvinylpyrrolidone,  
D&C Red 28

**Teat protection dip for dry cows.**

0.95 L (32 US FL OZ)

**UDDERgold® Dry**

Teat protection dip for dry cows

**FOR INDUSTRIAL USE ONLY - NOT FOR HOUSEHOLD USE**

For Dry Cows

**UDDERgold® Dry** Teat Dip is easy-to-use dry cow teat dip that is based on years of research. It uses patented technology to effectively seal and protect dry cow teats in your program.

*Directions For Use*

Use in a well-ventilated area. Do not pour unused product back into the original container. Keep container tightly closed when not in use. Apply with a disposable 3 fl oz paper cup.

*At Dry Off*

At last milking prior to dry off, milk out cow completely. Infuse dry cow product into clean, dry teat, according to product label instructions. Dip the entire length of the teat in **UDDERgold® Dry** Teat Dip. For maximum protection, a second application may be applied after the first coating is dry.

*10 Days Prior to Calving*

Clean teat thoroughly and wipe with dry towel. Dip entire length of teat in to **UDDERgold® Dry** Teat Dip. Dip should remain on teat for 3-7 days. Observe daily and re-dip if the sealant is removed prior to calving. After calving, peel off any remaining teat dip prior to milking. Consult your Ecolab representative for specific use instructions and recommended dispensing equipment.

**KEEP OUT OF REACH OF CHILDREN**

IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. IF INHALED:

Remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER/doctor if you feel unwell.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do.

Continue rinsing. If eye irritation persists: Get medical advice/attention. In case of fire:

Use dry sand, dry

chemical or alcohol-resistant foam to extinguish.
