----------

Children’s Dimetapp Long-Acting Cough plus Cold (chlorpheniramine maleate and dextromethorphan HBr)

DRUG FACTS

ACTIVE INGREDIENTS (IN EACH 5 ML TEASPOON)
Chlorpheniramine maleate, USP 1.0 mg
Dextromethorphan HBr, USP 7.5 mg

PURPOSES
Antihistamine
Cough suppressant

USES
- temporarily relieves cough due to minor throat and bronchial irritation as may occur with a cold
- temporarily relieves these symptoms due to hay fever or other upper respiratory allergies:
  - runny nose
  - sneezing
  - itchy, watery eyes
  - itching of the nose or throat

WARNINGS

Do not use
- to sedate a child or to make a child sleepy
- if you are now taking a prescription monoamine oxidase inhibitor (MAOI) (certain drugs for depression, psychiatric, or emotional conditions, or Parkinson's disease), or for 2 weeks after stopping the MAOI drug. If you do not know if your prescription drug contains an MAOI, ask a doctor or pharmacist before taking this product.

Ask a doctor before use if you have
- trouble urinating due to an enlarged prostate gland
- glaucoma
- a cough that occurs with too much phlegm (mucus)
- a breathing problem or chronic cough that lasts or as occurs with smoking, asthma, chronic bronchitis or emphysema

Ask a doctor or pharmacist before use if you are
- taking sedatives or tranquilizers
When using this product
- do not use more than directed
- marked drowsiness may occur
- avoid alcoholic drinks
- alcohol, sedatives, and tranquilizers may increase drowsiness
- be careful when driving a motor vehicle or operating machinery
- excitability may occur, especially in children

Stop use and ask a doctor if
- cough lasts more than 7 days, comes back, or is accompanied by fever, rash, or persistent headache. These could be signs of a serious condition.

If pregnant or breast-feeding,
- ask a health professional before use.

Keep out of reach of children.
- In case of overdose, get medical help or contact a Poison Control Center right away.

DIRECTIONS
- do not take more than 4 doses in any 24-hour period
