Disclaimer: This drug has not been found by FDA to be safe and effective, and this labeling has not been approved by FDA. For further information about unapproved drugs, click here.

----------

FOR INDUSTRIAL USE ONLY
KEEP OUT OF REACH OF CHILDREN
NOT FOR HUMAN USE
Wash hands thoroughly after handling. Get medical advice/attention if you feel unwell.

DIRECTIONS:

IMPORTANT: Do not further dilute with water or mix with any other teat dips. If product in dip cup becomes visibly dirty, discard contents and replenish with fresh product. Do not reuse or return any unused product to the original container. Udder Prep: When using an udder wash step before milking, make sure to wash teats with appropriate udder wash solution using proper cleaning procedures. Teats should then be dried with single-service towels.

Directions for Teat Dipping

Pre-Milk Dipping: Before each cow is milked, and using fresh Iodine 0.5-2% Teat Dip, dip each teat full-length into the teat dip cup. Wipe teats after dipping using single-service towels to avoid contamination of milk.

Post-Milk Dipping: Using fresh Iodine 0.5-2% Teat Dip, dip each teat full-length into the teat dip cup. Do not wipe. Allow to air dry. Do not turn cows out in freezing weather until the product is completely dry.

Directions for Teat Spraying

Pre-Milk Spraying: Before each cow is milked, and using fresh Iodine 0.5-2% Teat Dip, spray entire teat. Wipe teats after dipping using single-service towels to avoid contamination of milk.

Post-Milk Spraying: Using fresh Iodine 0.5-2% Teat Dip, spray entire teat immediately after each milking. Do not wipe. Allow to air dry. Do not turn cows out in freezing weather until the product is completely dry.

Expanded Usage: When freshening cows, begin dipping teats twice daily for about 10 days before calving. PRECAUTION: Iodine 0.5-2% Teat Dip is not intended to cure or help the healing of chapped or irritated teats. As with any germicide, irritation or sensitization may occur in sensitive animals. In case of teat irritation or chapping, have the condition examined and, if necessary, treated by a veterinarian.

FIRST AID

Eye Contact: Rinse with plenty of water.

Skin Contact: Rinse with water.

Ingestion: Rinse mouth. Get medical attention if symptoms occur.

Inhalation: Get medical attention if symptoms occur.

READ SAFETY DATA SHEET (SDS) BEFORE USING THIS PRODUCT

EMERGENCY HEALTH INFORMATION: Contact local poison control.
Sanitizing Teat Dip
- An aid in reducing the spread of organisms which may cause mastitis
- Contains an emollient system (glycerin and propylene glycol) 5%
- Does not contain Nonylphenol Ethoxylate (NPE)
