2)In order to maintain the quality of the product and avoid misuse

3)Avoid placing the product near fire and store out of reach of children

for external use only

SANG LEAF FACIAL CREAM CARE WITH COLLAGEN & SEED OIL

Why is not a soap?
No Soap! Yes Cream Bar!!

Cream bar is not a soap bar. Cream bar not only cleanses the skin but it also flourishes the skin with minimum or no irritation. Cream bar forms a creamy layer unlike soap bar. It removes all the impurities and injects nutrients directly into the skin. These nutrients are extracted from various species of plants

What is different?
No Bubble! Yes Cream!

The cream bar's contents are 1/500 of a normal soap bar. They are helpful for the skin to absorb essential nutrients while deep cleansing eliminates the impurities. We can get natural ingredients from 100 plant species and after testing for over 100,000 times; an optimal combination for human skin has been found.

Why is it different?
No chemicals but only natural ingredients

Soap removes natural oils from the skin and it has limitations to keep the skin moisturized. While the cream bar made of SANG LEAF maximizes the nutrient absorption. We have used a unique technique to make this cream bar that gives smooth & soft effect to the skin by sticking to the same optimal combination of natural ingredients. After 30 years of specialist research we have finally created SANG LEAF by using our unique technology.

* How to use

- Softly rubbing your hands with this cleansing bar
- The bright creamy foam comes in between both hands
- The longer massaging continuously, the more effective for keeping your skin soft and bright
