No family history of hair loss

Sudden or patchy hair loss

Unknown cause of hair loss

Under 18 years old (Avoid use on babies and children).

Red, inflamed, infected, irritated, or painful scalp.

Use of other scalp medications

May be harmful if used when pregnant or breast - feeding.

When Using

Apply only on the scalp or beard

Avoid contact with eyes (Rinse with cool water if contact occurs)

Stop Use

Experience chest pain, rapid heartbeat, faintness, or dizziness
Sudden, unexplained weight gain
Swelling of hands or feet
Scalp irritation or redness
Unwanted facial hair growth
No hair regrowth after 4 months

Ask Doctor

If have Allergy, plz check with doctor

Keep Out Of Reach Of Children

Keep Out Of Reach Of Children

Directions

Roll the roller gently across the treated scalp area, 5-10 times, in horizontal, vertical, and diagonal motions.

Apply 2-3 drops to the treated scalp area.

Massage in with fingers and wash hands thoroughly.

More serum or frequent use won't enhance results.

Consistent use is key for hair regrowth. Stopping may lead to hair loss.

Results may take at least 4 months with daily use (recommended: men: Once daily, Women: Twice daily)

Effectiveness varies from person to person.

IMPORTANT

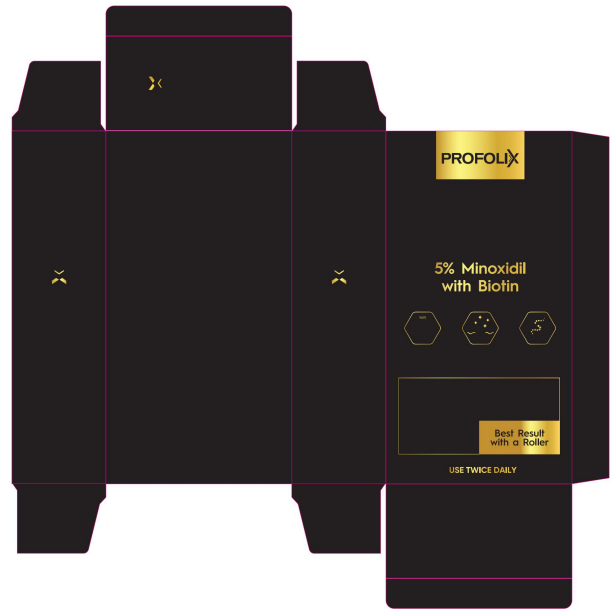

The hair growth cycle is around 6 months. Consistent use is crucial for effectiveness, and visible results may appear after 3-4 months. Keep up the treatment post-initial improvements to sustain progress; discontinuation may lead to withdrawal.

Inactive ingredients
