CHG Teat Dip

**TEAT DIPPING is an important part of a
MASTITIS CONTROL PLAN:**

1. Dip teats immediately after milking.
2. Use good milking and environmental management procedures.
3. Use properly functioning milking equipment.
4. Treat every quarter of every cow at dry off.
5. Identify and treat or manage clinical cases promptly.
6. Cull chronically infected cows.

TEAT DIPPING IN COLD WEATHER:

When the temperature falls below 10 degrees F, or when wind chill is significant, special precautions should be taken to avoid chapped and frozen teats.

1. Teats should be dry before turning cows out into cold weather.
2. When teats are dipped after milking, allow 30 seconds contact, and blot off any excess teat dip with a single service towel.
3. Warm the teat dip to reduce drying time.
4. Provide windbreaks in outside areas for cows.
5. Monitor fresh cows with swollen udders and teats since they are more susceptible to chapped and frozen teats.

REFER TO SAFETY DATA SHEET

**TAKE TIME OBSERVE LABEL
 DIRECTIONS**

DIRECTIONS FOR USE:

- DO NOT DILUTE.
- Dip teats immediately after milking as a routine part of milking procedures.
- Dip to THOROUGHLY COVER at least the lower one-third of the teat (preferably to the base of the udder), IMMEDIATELY after every milking.
- Empty and clean dip cups after each milking, or during milking, if they become contaminated.
- Do not pour used dip back into original container.
- KEEP FROM FREEZING
- Keep container closed to prevent contamination.
- Store container in an upright position.

FIRST-AID:

EYES: If contact with eyes occurs, flush with plenty of cool water for 15 minutes. Consult a physician.

INTERNAL: May be harmful if swallowed. If ingested, drink large amounts of water or milk. DO NOT induce vomiting. Get medical attention immediately.

EYES: If contact with eyes occurs, flush with plenty of cool water for 15 minutes. Consult a physician.

INTERNAL: May be harmful if swallowed. If ingested, drink large amounts of water. DO NOT induce vomiting. Get medical attention immediately.

INSTRUCCIONES POR EL USO:

- NO LO DILUIES.
- Sumerge los pezones inmediatamente después del ordeño como parte rutinaria de procedimientos de ordeño.
- Sumerge para cubrir a fondo al menos el tercio inferior de la teta (preferiblemente a la base de la ubre), inmediatamente después de cada ordeño.
- Vacío y limpie las tazas sumergiendo después de cada ordeño, o durante el ordeño, si contaminan.
- No vierta baño pezones utilizado volver a la recipiente de origen.
- NO DEJE QUE SE CONGEELE.
- Mantenga el recipiente bien cerrado para evitar la contaminación.
- Mantenga el recipiente en una posición vertical.

BAÑO DE PEZONES ES UNA PARTE IMPORTANTE DE UN PLAN PARA CONTROL DE LA MASTITIS:

1. Sumerge los pezones inmediatamente después del ordeño.
2. Utilice buenas prácticas de gestión para el ordeño y medio ambiente.
3. Utilice equipo de ordeño que funciona correctamente.
4. Trate a cada cuarto de la ubre de cada vaca el dentro de fase de secado.
5. Identifique y trate o maneje casos clínicos con prontitud.
6. Entregue las vacas que están infectadas crónicamente.

BAÑO DE PEZONES EN TIEMPO FRÍO:

Cuando la temperatura cae por debajo de 10°F (-12°C), o cuando el factor de enfriamiento del viento es importante tome precauciones especiales para evitar los pezones agrietados y congelados.

1. Los pezones deben estar secos antes de soltar las vacas en el frío.
2. Cuando los pezones se sumergen después del ordeño, espere 30 segundos de contacto, y posteriormente secalos el exceso de baño de pezones con una toalla desechable.
3. Caliente el baño de pezones para reducir el tiempo de secado.
4. Proporcione protección contra el viento en las áreas para las vacas.
5. Vigile las vacas frescas con ubres hinchadas y pezones ya que son más susceptibles a los pezones agrietados y congelados.

PRIMEROS AUXILIOS:

OJOS: Si ocurre contacto con los ojos, lavar con abundante agua fría durante 15 minutos. Consulte a un médico.

INTERNO: Puede ser nocivo en caso de ingestión. Beba grandes cantidades de agua si se ingiere este producto. NO induzca el vómito. Obtenga atención médica inmediatamente.
