KEEP OUT OF REACH OF CHILDREN

NOT FOR HUMAN USE

Attention

For External Use Only

Wash hands thoroughly after handling. Do not mix with bleach or other chlorinated products – will cause chlorine gas.

Get medical advice/ attention if you feel unwell.

Read Safety Data Sheet (SDS) before using this product.

DIRECTIONS FOR USE

Mix Directions: Measure equal volumes of Encore Pre/Post & Encore Activator into clean containers. Mix until color is uniform. Mix a significant quantity for one milking and then discard the remainder.

IMPORTANT: Do not add mixed Encore Pre/Post & Encore Activator RTU (ready-to-use) to any other teat dip or other product. If transferred from this container to any other, make sure the other container is thoroughly pre-cleaned and bears the proper container labeling for Encore Pre/Post & Encore Activator RTU. Use of a complete udder health program including both pre- and post-dipping may aid reducing the spread of organisms which cause mastitis.

DIRECTIONS FOR TEAT DIPPING

Pre-Milking: Prepare teats prior to milking with appropriate pre-dip or udder wash. Teats should then be dried thoroughly with a single-service towel before attaching the milking unit.

Post-Milking: Immediately after milking, use Encore Pre/Post & Encore Activator RTU at full strength. Apply product to teats 2/3 their length in Encore Pre/Post

& Encore Activator RTU teat dip. Allow to air dry. Do not wipe. Always use fresh, full-strength Encore Pre/Post & Encore Activator RTU teat dip. If the product in the teat dip cup becomes visibly dirty, discard and replenish with fresh product. Do not reuse or return unused product to the original container. Do not turn cows into freezing weather until Encore Pre/Post & Encore Activator RTU teat dip is completely dry.

NOTE: In case of irritation or chapping, have the condition examined and, if necessary, treated by a veterinarian.

**MANTÉNGALO ALEJADO DEL ALCANCE
DE LOS NIÑOS
NO ES PARA USO HUMANO**

Atención

Solo de uso externo

Lavarse las manos cuidadosamente después de la manipulación. No mezclar con lejía u otros productos clorados – puede liberar cloro gaseoso.

Consultar a un médico si la persona se encuentra mal.

Lea la Ficha de Datos de Seguridad antes de usar el producto.

PARA INFORMACION MEDICA DE EMERGENCIA EN LOS EE.UU. O CANADA, LLAME AL 1-800-328-0026.

PARA INFORMACION MEDICA DE EMERGENCIA EN EL MUNDO ENTERO, LLAME AL 1-651-222-5352 (EN LOS EE.UU.).

INSTRUCCIONES DE USO

Mezcla: Mida dos cantidades iguales de Encore Pre/Post y Encore Activator en unos recipientes limpios. Mezcle hasta que el color se vea uniforme. Mezcle una cantidad apropiada para una ordeña y luego, tire el resto.

IMPORTANTE: No agregue Encore Pre/Post y Encore Activator RTU (Listo para usarse) a ningún otro sellador de pezones o a otros productos. Si lo transfiriere de este recipiente a otro, verifique que el otro esté minuciosamente limpio y que tenga la etiqueta de Encore Pre/Post y Encore Activator RTU.

El uso de un programa completo para el cuidado de ubres incluyendo el pre y postsellado puede reducir la diseminación de organismos que causan la mastitis.

INSTRUCCIONES PARA EL SELLADO DE PEZONES

Pre ordeña: Antes de ordeñar, prepare los pezones con el pre-sellado adecuado o con un lavado de ubres. Antes de colocar la unidad ordeñadora, seque completamente los pezones utilizando una toalla desechable.

Post ordeña: Inmediatamente después de la ordeña, use Encore Pre/Post y Encore Activator RTU sin diluir. Aplique el producto sumergiendo las 2/3 partes de los pezones en el sellador de pezones Encore Pre/Post & Encore Activator RTU. Deje secar al aire. No lo limpie. Siempre use el sellador de pezones Encore Pre/Post & Encore Activator RTU cuando está fresco y sin diluir. Si el producto en la copa de sellado se ve sucio, tirelo y vuelva a llenar con producto fresco. No vuelva a usar el producto residual ni lo devuelva al recipiente original.

No saque las vacas a la intemperie helada hasta que el sellador de pezones Encore Pre/Post & Encore Activator RTU se haya secado completamente.

NOTA: En caso de irritación o agrietamiento, consulte con un médico veterinario para que examine o trate el caso.
