CVS Health
Drug Facts

Active ingredient	Purpose
Benzoyl peroxide 2.5%	Acne Treatment

Uses Helps prevent new acne blemishes.

Warnings

For external use only.

Do not use if you have very sensitive skin or if you are sensitive to benzoyl peroxide.

Stop use and ask a doctor if irritation becomes severe.

When using this product:

- avoid unnecessary sun exposure and use a sunscreen
- using other topical acne drugs at the same time or right after use may increase dryness or irritation of skin.

If this occurs, only one drug should be used

- skin irritation may occur, characterized by redness, burning, itching, peeling, or possibly swelling.

Irritation

may be reduced by using the product less frequently or in a lower concentration

- keep away from eyes, lips and mouth
- avoid contact with hair and dyed fabrics, which may be bleached by this product

Keep out of the reach of children. If swallowed, get medical help or contact a Poison Control Center right away.

Directions

Cleanse skin thoroughly before applying. Cover entire affected area with a thin layer 1 to 3 times daily.

Start

with one application daily, because excessive drying may occur. Then gradually increase to 2 or 3 times daily

if needed or as directed by a doctor. If bothersome dryness or peeling occurs, reduce application to once a

day or every other day. If going outside use a sunscreen. Allow acne medication to dry before application of

sunscreen. If irritation or sensitivity develops, stop use of both products and ask a doctor.

Inactive ingredients

Bentonite, Caprylic/Capric Triglyceride, Cetyl Dimethicone, Citric Acid, Disodium EDTA, Emulsifying Wax NF,

Ethylhexylglycerin, Glycerin, Glyceryl Laurate, Magnesium Aluminum Silicate, Phenoxyethanol, Polysorbate 20,

Sodium Citrate, Water, Xanthan Gum.
