Emergency Medical Facility: \_\_\_\_\_

Health Professional: \_\_\_\_\_

**Warning:**

Do not use if Tamper Evident Seal imprinted "Sealed for Your Protection" is broken or missing. This product is sealed with either a shrink band around the cap or foil seal under cap.

**Use**

For emergency use to adsorb swallowed poisons.

**Warnings**

- Do not give Activated Charcoal until after patient has vomited unless directed by a health professional.
- Do not use in persons who are not fully conscious.
- Do not use this product unless directed by a health professional if turpentine, corrosives such as alkalis (lye) and strong acids or petroleum distillates, such as kerosene, gasoline, paint thinner, cleaning fluid or furniture polish have been ingested.
- Do not give if poison victim is unconscious or having convulsions. Keep patient active

and moving.

### **Keep out of reach of children.**

In case of accidental overdose, seek professional assistance or contact a Poison Control Center immediately.

### **Directions for 1 oz bottle**

When Activated Charcoal is indicated for use, give 3 to 4 heaping tablespoonfulls (20 to 30 g) mixed in a minimum of 8 ounces of liquid or as directed by a health professional. If an emergency, fill this bottle with water.

Mix well and have poison victim drink all of this mixture. Repeat dose immediately, if possible. If previous attempts to contact a poison control center, emergency medical center or health professional were unsuccessful, continue trying. If possible save the container of poison.

### **Directions for 8 oz bottle**

When Activated Charcoal is indicated, the usual dose is as follows:

- 0-10 years of age: 1 to 3 heaping tablespoonfulls (10 -25 g) mixed in a minimum of 8 ounces of liquid.
- 10 - 12 yrs of age: 3 - 6 tablespoonfulls (25 - 50 g) mixed in a minimum of 8 ounces of liquid.
- Greater than 12 years of age: 3 to 12 tablespoonfulls (25 - 100g) mixed with a minimum of 8 ounces of liquid or as directed by a health professional. mix well and have poison victim drink all of this mixture. Repeat dose immediately, if possible. If the previous attempts to contact poison control center, emergency medical center or health professional were unsuccessful, continue trying. If possible save the container of poison.

### **Other Information**

- Activated Charcoal has a very gritty texture and will coat the mouth, lips and tongue.
- Keep tightly closed in a cool dry place.

### **Inactive Ingredients**

None
