-----  
**Scrub Care® Povidone Iodine Cleansing Scrub**

**Active ingredient**

Povidone-iodine, USP 7.5% (0.75% available iodine)

**Purpose**

Antiseptic

**Uses**

- **Surgical Hand Scrub:** Significantly reduces the number of micro-organisms on the hands and forearms prior to surgery or patient care.
- **Patient Preoperative Skin Preparation:** for preparation of skin prior to surgery.Helps reduce bacteria that potentially can cause skin infection.
- **Antiseptic Handwash:** for hand washing to reduce bacteria on skin

**Warnings**

**For external use only**

**Do not use**

- in the eyes
- on persons allergic to iodine

**Stop use and ask a doctor if**

- skin shows symptoms of irritation, sensitivity, redness, pain or swelling. If condition persists for more than 72 hours consult a doctor.
- In case of deep puncture wounds or serious burns.

**Keep out of reach of children**

If swallowed, get medical help or contact a Poison Control Center right away.

**Directions**

- **Surgical hand scrub:** clean under nails with a nail pick. Nails should be maintained with a 1 millimeter free edge; wet hands and forearms; scrub for 3 minutes with about 5 ml of scrub and a wet brush; pay particular attention to the nails, cuticles, and interdigital spaces; rinse and repeat
- **Patient Preoperative Prep:** clean the area; apply solution saturated sponge; starting at the surgical site moving outward in concentric circles for a minimum of 5 minutes; blot with sterile towel; follow with application of topical solution
- **Antiseptic Handwash:** wet hands and forearms; apply ample amount of solution to wet hands: wash in vigorous manner for 15 seconds; rinse and repeat

## Other information

- store at room temperature
