CeraSoothe CHX+KET

Antiseptic Mousse

Fragrance: Cucumber melon

A leave-on mousse with chlorhexidine and ketoconazole, antibacterial and antifungal ingredients for antiseptic activity on skin. Ceramides and avenanthramides are skin nourishing nutrients that moisturize and calm the skin. They also support the skin's natural immune system, and provide building blocks for renewed skin barrier integrity.

Active ingredients: Chlorhexidine gluconate 2%, ketoconazole 1%.

Inactive ingredients: Water, glycerin, polysorbate 20, propylene glycol, lactic acid, avena sativa (oat) kernal extract, ceramide EOP, ceramide EOS, ceramide NP, fragrance, potassium sorbate, methylisothiazolinone.

Indications: For use on cats, dogs and horses with bacterial or fungal skin infections that are responsive to chlorhexidine or ketoconazole.

Directions for use: Brush the fur and then apply on dry hair. Apply every 3 days for 2 to 3 weeks or as directed by your veterinarian. Wash hands after use.

For localized application: Dispense 1 - 2 pumps onto your palm and then apply on the targeted area(s). Massage into the skin until fully penetrated. Do not rinse, let air dry. Once dry, brush the fur again.

For whole body application: Dispense 1 or 2 pumps onto your palm and then apply on the skin and hair. Massage into the skin until fully penetrated. Repeat as many times and necessary to cover the whole body, avoiding the eyes and mouth. Do not rinse, let air dry. Once dry, brush the fur again.

Dosage:

Under 11 lbs: 1 pump per 2 lbs

11-88 lbs: 1 pump per 4 lbs

Over 88 lbs: 1 pump per 6 lbs

Dosage may be doubled for long-haired breeds. For deeper cleansing, use Ceraven CHX+KET antiseptic shampoo.

Cautions: For external use on cats, dogs and horses only. Avoid contact with eyes. In case of contact with eyes, rinse thoroughly and consult your veterinarian. If skin irritation occurs or increases, discontinue use and consult with your veterinarian.

Storage: Store at controlled room temperature. Do not freeze.
