Arnica Montana Oil, Hemp Extract and Vitamin E

Joint and muscle discomfort is one of the primary pains we all experience. Joint discomfort can come from over usage (running, climbing stairs, or sports activities). As humans get older the joints in our body wear out and create discomfort. Here at my hemp MD we have developed a joint and muscle cream to ease the discomfort in your joints and the surrounding soft tissue. Our formula developed here at My Hemp MD helps to reduce the symptoms of overuse and strain of your muscles and joints. The formula is infused with real natural hemp extract (RNHE™) because we believe the cannabinoids in RNHE™ promote the active ingredients of the joint and muscle cream to ease the pain and discomfort you experience.
