PRINCIPAL DISPLAY PANEL

Fleet®

Mineral Oil

enema

lubricant laxative

1 bottle - 4.5 FL OZ (133 mL)

Complete enema in a disposable squeeze bottle with soft, pre-lubricated Comfortip®

Fleet® Enemas are **LATEX-FREE**.

How to use this enema:

■ REMOVE GREEN WRAPPER WITH FLEET® EMBLEM AND ORANGE PROTECTIVE SHIELD FROM ENEMA COMFORTIP® BEFORE INSERTING.

■ With steady pressure, gently insert enema tip into rectum with a slight side-to-side movement, with tip pointing toward navel. Insertion may be easier if person receiving enema bears down, as if having a bowel movement. This helps relax the muscles around the anus.

■ DO NOT FORCE THE ENEMA TIP INTO RECTUM AS THIS CAN CAUSE INJURY.

■ Squeeze bottle until nearly all liquid is gone. It is not necessary to empty the bottle completely, as it contains more liquid than needed.

■ Remove Comfortip® from rectum and maintain position until urge to evacuate is strong (usually 2 to 15 minutes).

■ Do not retain enema solution for more than 15 minutes.

■ If constipation continues after one week of use, contact your doctor.

Positions for using this enema:

■ **Left-side position:** Lie on left side with knee bent, and arms resting comfortably.

■ **Knee-chest position:** Kneel, then lower head and chest forward until left side of face is resting on surface with left arm folded comfortably.

*Based on laboratory data
