

DERMASIL ADVANCED- dimethicone lotion

Rise International Group LLC

Disclaimer: Most OTC drugs are not reviewed and approved by FDA, however they may be marketed if they comply with applicable regulations and policies. FDA has not evaluated whether this product complies.

Dermasil® Labs has developed Dermasil® OTC Advanced Treatment, a powerful extra-dry skin moisturizer and protectant. Enhanced with Vitamins E & B3, this nutrient-rich creamy lotion contains four systems to control and provide long-lasting relief from severe dry skin:

Occlusives to block moisture loss from the skin's surface

Humectant to bind water in the skin's outermost layers

Skin Lipids to enhance the skin's natural ability to retain moisture

EFA's an important component of the skin's moisture barrier

Indications:

Suitable for severe dry skin, and control of symptoms such as chapping, cracking, flaking, roughness, redness, soreness, and the itching associated with dry skin.

Drug Facts

Active Ingredient

Dimethicone 1%

Purpose

Skin protectant

Uses

- Temporarily protects and helps relieve chapped or cracked skin.
- Helps protect from the drying effects of wind and cold weather.
