I-DEFENSE[®] VET

**LONG-LASTING HYDRATION
AND LUBRICATION**

**Isotonic Ophthalmic Ointment Containing
0.4% Sodium Hyaluronate**

MAXIMUM RELIEF

INDICATIONS

I-DEFENSE[®] VET is a long-lasting hydrating and lubricating ointment for the eye surface. I-DEFENSE[®] VET is recommended for use in species such as dogs, cats, horses and other animals. I-DEFENSE[®] VET's viscous nature enables a prolonged adhesion to the ocular surface, performing its moisturizing and protective action even during the night hours.

DIRECTIONS

- Wash your hands well before you use I-DEFENSE[®] VET.
- When opening I-DEFENSE[®] VET, do not use the first delivery of the ointment which may be aqueous. Gently squeeze the tube until the ointment begins to come out.
- Tilt the head of your companion animal up a little and pull the lower lid of its eye downwards to form a pouch.
- Hold the tube vertical to the eye.
- Press the tube gently to release a small quantity of I-DEFENSE[®] VET on the eye. Repeat the process on the other eye.
- Apply a small quantity of ointment, preferably at night.
- If an additional daily dose is required, apply a small quantity of ointment every three or four hours or according to your veterinarian's instructions.
- Please take care that the tube tip does not touch anything, including the eye or your fingers.
- Close the cap properly and tightly after use.

COMPOSITION

I-DEFENSE[®] VET tube contains 5 g of sterile, isotonic ophthalmic ointment whose formulation consists of sodium hyaluronate, sodium chloride, vaseline oil, vaseline, monobasic potassium phosphate, potassium sorbate, disodium phosphate, lanolin alcohol, water and sodium hydroxymethylglycinate.

WARNINGS

- Do not use I-DEFENSE[®] VET in case of known hypersensitivity or allergy to any of the components.
- In case of ocular irritation, stop using I-DEFENSE[®] VET ointment and consult your veterinarian for advice.
- After application, your companion animal may experience a foreign body sensation which passes after several blinks.

- Do not use I-DEFENSE® VET if the package is damaged.
- Do not use I-DEFENSE® VET after expiry date.
- For use within 8 weeks of opening.
- Store away from direct heat, in a cool, dry place at a temperature ranging from 9°C to 25°C (48°F to 77° F).
- Do not ingest.
- Do not use I-DEFENSE® VET on more than one companion animal.
- If you are using any other eye drops or ointments, leave about fifteen minutes between each application. It is recommended that you use I-DEFENSE® VET last.
- Do not use I-DEFENSE® VET in case of ocular lesions or active infection.

KEEP OUT OF REACH OF CHILDREN.

NOT FOR USE IN HUMANS.
