Physicians Care Eyewash Station Additive Concentrate

Ingredients

Chlorhexidine gluconate 1% w/v Purified Water, Propylene Glycol

Purpose

Preservative

Use

A preservative for use in potable self-contained emergency eyewash stations

Warnings

For external use only. In case of contact with eye in undiluted form, flush with clean water

Do not use

- in full strength

When using this product

- do not change dilution or use with other chemicals
- do not reuse

Stop use and ask a doctor if you have any of the following

- changes in vision
- eye pain
- condition worsens or persists
- continued redness or irritations of the eye

Keep out of reach of children. If swallowed, get medical help or contact a Poison Control Center right away.

Directions

- wear protective eyewear and gloves
- clean potable eyewash station and rinse with potable water
- partially fill station with potable water
- remove tamper evident seal and cap of bottle
- add entire contents of the bottle to the eyewash station container
- fill the station to the manufacturer's required level
- date and initial inspection tag
- station should be cleaned and refilled every 120 days when using this product
- in advance of emergency, add the concentrate to potable water to have solution available

Other information

- lot number is printed on the bottle
- store at 20° to 25° C [68° to 77° F]
- for your protection, this bottle has an imprinted white seal with black printing "TAMPER EVIDENT"

SEAL"

- do not use if this seal is missing or broken
- use before expiration date marked on bottle
