-----

**Kendall Antifungal Cream**

**Active Ingredient**

Miconazole nitrate 2%

**Purpose**

Antifungal

**Uses**

- for the treatment of most athlete's foot (tinea pedis), jock itch (tinea cruris), and ringworm (tinea corporis).
- for effective relief of itching, scaling, cracking, burning, redness, soreness, irritation, discomfort, and chafing associated with jock itch.

**Warnings**

**Do not use** on children under two years old unless directed by a doctor.

**For external use only.**

**When using this product**

- do not get into eyes

**For the treatment of athlete's foot and ringworm**, if irritation occurs or if there is no improvement within four weeks, discontinue use and consult a doctor.

**For the treatment of jock itch**, if irritation occurs or if there is no improvement within two weeks, discontinue use and consult a doctor.

**Keep out of the reach of children.** If swallowed, get medical help or contact a Poison Control Center right away.

**Directions** Clean the affected area and dry thoroughly. Apply a thin layer of the product over the affected area twice daily (morning and night) or as directed by a doctor. Supervise children in the use of this product. For athlete's foot: pay special attention to spaces between the toes; wear well-fitting, ventilated shoes and change shoes and socks at least once daily. For athlete's foot and ringworm, use daily for four weeks; for jock itch, use daily for two weeks. If condition persists longer, consult a doctor. This product is not effective on the scalp or nails.

**Other Information**

- protect from freezing
- avoid excessive heat

**Inactive ingredients**

Water, mineral oil propylene glycol, sorbitane stearate, cetyl alcohol, isopropyl palmitate, simmondsia

chinensis (jojoba) seed oil, sodium lactate, polysorbate 60, dimethicone, butyrospermum parkii (shea butter), decylene glycol, xanthan gum, retinyl palmitate, tocopheryl acetate, cetyl hydroxyethylcellulose, methylparaben, propylparaben, diazolidinyl urea
