Indications: For the temporary relief of migraine headaches.

Directions: Apply to temples and back of the neck as needed, gently rub into skin. For children under 2 years of age, consult a doctor first.

It can offer relief from migraine pain in as little as 3-5 minutes. However, individuals with more severe migraine headaches may find it can take up to 10 minutes.

Migraine Pain Management should be applied as needed, or 2-3 times a day for all day relief. Only 1-2 drops is needed for each location. However it is OK to use more than this to treat more severe migraines, or for quicker relief.

Apply the drops to the temples and the back of your neck using your fingertip, or a cotton swab, and gently rub into the skin.
