Skin Doctors™ Photo Age Reverse™ Cream

Scientifically shown to reverse years of visible premature ageing including wrinkles, sun spots and imperfections.

Problem - Everyday exposure to sunlight accounts for up to 80% of the signs of premature skin ageing. Many of these signs of 'photo-ageing' can begin to develop as early as in our 20's.

Solution - Photo Age Reverse™ contains the revolutionary ingredient Venuceane™. Rigorous tests under extreme UV exposure showed that it can reverse some of the worst signs of ageing caused by the sun. It was also seen to prevent the appearance of further photo-ageing of skin.

Result - With regular use, Photo Age Reverse™ dramatically reduces the visible signs of premature ageing including existing wrinkles, spots and imperfections. It also helps prevent visible skin ageing so you look younger for longer. In fact tests showed it could save up to 5 years of visible skin ageing in just months.

ACTIVE INGREDIENTS:	PURPOSE	
Thermus Thermophilus Lysate	4.75% w/w	OTC
Glycerin	0.25% w/w	

INACTIVE INGREDIENTS

Water, Octinoxate, Isopropyl Myristate, Cetostearyl Alcohol, PEG-20 Stearate, Butylene Glycol, Glyceryl Monostearate, Dimethicone, Cyclomethicone 5, Stearyl Alcohol, Cetareth-20, PEG-100 Stearate, Phenyl Trimethicone, Methylparaben, Fragrance, Propylparaben, Edetate Sodium, Lecithin Soybean.

DIRECTIONS

After cleansing, massage gently into face and neck, morning and night. Use with Photo Age Reverse™ Serum at night for maximum results.

Warnings/Cautions

Testé scientifiquement comme inversant les signes du vieillissement précoce dont les rides, les taches de soleil ainsi que les imperfections

Le problème – Jusqu'à 80 % des signes du vieillissement précoce de la peau sont provoqués par une exposition quotidienne aux rayons du soleil. La plupart de ces signes provoqués par le « photovieillissement » peuvent commencer à se développer dès vos vingt ans.

La solution- Photo Age Reverse™ contient un ingrédient révolutionnaire, le Venuceane™. Des tests rigoureux réalisés dans des conditions d'exposition extrêmes aux rayons UV ont révélé sa capacité à inverser quelques uns des symptômes les plus ravageurs du vieillissement provoqué par le soleil. Il est également capable d'empêcher l'apparition postérieure du photovieillissement de la peau.

MODE D'EMPLOI: Une fois le gommage, massez en douceur votre visage et votre cou matin et soir. Appliquez également le sérum Photo Age Reverse™ chaque soir pour de meilleurs résultats.
Conserver à moins de 30°C.
