

**THERABLOAT DRENCH- poloxalene concentrate**  
**Zoetis Inc.**

-----

**Therabloat<sup>®</sup>**  
**(poloxalene)**

**Drench Concentrate**

*For treatment of legume (alfalfa, clover) bloat in cattle*

*For veterinary use only*

NADA #39-729, Approved by FDA

Each fl oz (approx. 30 mL) contains 25 grams of poloxalene.

**Indications**

Therabloat Drench Concentrate will relieve legume bloat in cattle within minutes when used as directed. For best results administer at the earliest sign of bloat. If bloat has progressed in its severity to the degree that the animal is down, other means of treatment also are recommended (rumenotomy-rumen puncture). For oral use only—not for injection. May be used in lactating dairy animals.

**Dosage**

For animals up to 500 lb, use 1 fl oz of Drench Concentrate. For animals over 500 lb, use 2 fl oz of Drench Concentrate.

**Directions for Preparing Drench**

Add the proper amount of concentrate to 1 pint of water. Mix well and administer using a drenching bottle. If a stomach tube is to be used, add concentrate to 1 gal of water.

**Caution**

Keep out of reach of children.

**Storage**

**Store at 20° to 25°C (68° to 77°F), with excursions permitted between 15° and 37°C (59° and 99°F).**

**For Animal Use Only**

**Restricted Drug (California)—Use Only as Directed**

**Not for Human Use**
