

CREOMULSION COUGH MEDICINE ADULT FORMULA- dextromethorphan hydrobromide syrup
Socius Care, LLC

Creomulsion Cough Medicine Adult Formula Drug Facts

Active Ingredient

In each (3 tsp) 15 ml Dextromethorphan HBr, USP 20 mg

Purpose

Cough Suppressant

Uses

- Temporarily relieves cough due to minor throat and bronchial irritation as may occur with a cold.

Warnings

Do not use if you are now taking prescription monoamine oxidase inhibitor (MAOI) (certain drugs for depression, psychiatric; or emotional conditions, or Parkinson's disease),

or for 2 weeks after stopping the MAOI drug. If you do not know if your prescription drug contains an MAOI, ask a doctor or a pharmacist before taking this product.

Ask a doctor before use if you

- have cough that occurs with too much phlegm (mucus)
- have cough that lasts or is chronic such as occurs with smoking, asthma, chronic bronchitis, or emphysema.

Stop use and ask a doctor if

- cough lasts more than 7 days, comes back, or is accompanied by fever, rash, or persistent headache. These could be signs of a serious condition.

If pregnant or breast feeding, ask a health professional before use.

Keep out of reach of children. In case of overdose, get medical help or contact a Poison Control Center right away.

Directions

•Do not take more than 6 doses in any 24 period. Use enclosed dose cup.

Adults and children 12 years and over	15mL (3 tsp) every 4 hours
Children under 12 years	do not use

Other Information

- store at 20-25°C (68-77°F)
- packaged with tamper-evident seal under the cap
- contains no alcohol
- each 15 mL contains 5 mg sodium

ADULT FORMULA

Warnings: A persistent cough may be a sign of a serious condition. If cough persists for more than 1 week, tends to recur, or is accompanied by a fever, rash, or persistent headache, consult a doctor. Do not take this product for persistent or chronic cough such as occurs with smoking, asthma, chronic bronchitis, emphysema, or if cough is accompanied by excessive phlegm (mucus) unless directed by a doctor. As with any drug, women who are pregnant or nursing a baby should seek the advice of a health professional before using this product.

Drug Interaction Precaution: Do not take this product if you are now taking a prescription monoamine oxidase inhibitor (MAOI) (certain drugs for depression, psychiatric or emotional conditions, or Parkinson's disease), or for 2 weeks after stopping that MAOI drug. If you are uncertain whether your prescription drug contains an MAOI, consult a health professional before taking this product. In case of accidental overdose, seek professional assistance or contact a poison control center immediately.
