

**PERFECT CHOICE- sodium fluoride and hydrofluoric acid gel**  
**Young Dental Manufacturing Co 1, LLC.**

*Disclaimer: This drug has not been found by FDA to be safe and effective, and this labeling has not been approved by FDA. For further information about unapproved drugs, [click here](#).*

-----

**Indications and Usage:**

Topical application of APF gel is indicated in the prevention of dental caries.

**Warning:**

**Keep out of reach of children. Do not swallow.**

If swallowed during treatment, administer milk, limewater, or antacid. If larger dose is ingested (more than 1/4 ounce), contact poison control and immediately seek medical help.

**Precautions:**

For professional use only. Repeated use may cause dulling of porcelain and ceramic restorations.

**Adverse reactions:**

Developing teeth of children under age 6 may become permanently discolored if excessive amounts are repeatedly swallowed. Individuals hypersensitive to fluoride may have an adverse reaction.

**Dosage and Administration:**

After thorough prophylaxis, place gel in applicator tray (not more than 1/3 full). Thoroughly air-dry teeth and insert tray(s) in mouth. Gel may also be swab applied. Instruct patient to bite down slightly but firmly for one to four minutes. A slight chewing motion enhances coverage interproximally. Remove tray(s) and have patient expectorate excess gel. Instruct patient not to eat, drink or rinse for at least 30 minutes.

**How Supplied:**

A gel, one bottle contains up to 68 individual applications. Store at controlled room temperature 20°-25°C (68°-77°F).

Do not allow to freeze.

**Active Ingredients:**

1.23% w/w Fluoride Ion (0.79% from Sodium Fluoride and 0.44% from Hydrogen Fluoride) in 0.1 Molar Phosphoric Acid

**Contains:** FD&C Red #40
