-----

**Active ingredients**

Dextromethorphan HBr

Guaifenesin

Phenylephrine HCl

**Purpose**

Cough Suppressant

Expectorant

Nasal Decongestant

**Uses**

- helps loosen phlegm (mucus) and thin bronchial secretions to drain bronchial tubes and make coughs more productive
- temporarily relieves nasal congestion due to hay fever or other respiratory allergies (allergic rhinitis) and cough due to minor throat and bronchial irritation as may occur with the common cold

**Warnings**

Do not exceed recommended dosage

- If nervousness, dizziness, or sleeplessness occurs, discontinue use and consult a doctor
- If symptoms do not improve within 7 days or are accompanied by fever, consult a doctor.

Do not use this product

- for persistent or chronic cough such as occurs with asthma, or if cough is accompanied by excessive phlegm (mucus), unless directed by a doctor
- in a child who is taking a prescription Monoamine oxidase Inhibitor (MAOI) (certain drugs for depression, psychiatric, or emotional conditions, or Parkinson's disease), or for two weeks after stopping the MAOI drug; if you do not know if your child's prescription drug contains an MAOI, ask a doctor or pharmacist before giving this product.
- Do not give this product to a child who has heart disease, high blood pressure, thyroid disease, or diabetes, unless directed by a doctor.

Stop use and ask a doctor

- A persistent cough may be a sign of a serious condition
- if cough persists for more than one week, tends to recur, or is accompanied by fever, rash or persistent headache, consult a doctor.

**Keep out of reach of children**

Keep out of reach of children. In case of accidental overdose, get medical help or contact a Poison

Control Center right away.
