front

Boy Butter Extreme is a desensitizing oil-based lubricant consisting of three powerful yet gentle ingredients. Coconut oil, an organic silicone, the ingredient used as a common de-tangler in hair conditioners and Benzocaine, and a local anesthetic, to help you push beyond your wildest limits. These ingredients are homogenized like real butter and the end result is a personal lubricant that will numb the fun parts and last as long as any synthetic or silicone lubricant. Better yet, it washes off with water alone, from both skin and fabric.
