ID Anti-Acne Toner Clarifying Face + Body Treatment

Active Ingredients

Salicylic Acid 1.00%

Purpose

Acne Treatment

Purpose

Acne Treatment

Uses

- Treats acne
- Helps prevent development of new acne blemishes

Warnings

For external use only

When using this product

- Apply to affected areas only
- Avoid unnecessary sun exposure and use a sunscreen
- Do not use in or near the eyes
- Using other topical acne drugs at the same time

or right after use of this product

may increase dryness or irritation of the skin.

Only one drug should be used unless directed by a doctor

Keep out of reach of children, if

swallowed, get medical help or contact a Poison Control Center right away.

Keep out of reach of children, if

swallowed, get medical help or contact a Poison Control Center right away.

Directions

- Clean skin well before applying this product
- Moisten (do not soak) cotton with this product.
- Swipe gently over affected areas on face and body skin. Avoid mucosal (wet) areas of eyes, nostrils and mouth
- Follow with a sunscreen
- Because excessive drying of the skin may occur, start applying 2x-a-week only, very slowly increasing until 2x-a-day usage is achieved (no earlier than week 8). Do not rush.
- If bothersome dryness or peeling occurs, stop for 5-7 days and restart application frequency at 2x-a-week, slowly increasing over several weeks.

- Protect the product in this container from excessive heat and direct sun.
- Before use, test a tiny amount on skin (we omit allergens, but you may be sensitive to an ingredient that is not an allergen).
- Introduce new skin products one at a time, with at least 3 days in between.
- Do not (re)introduce removed portions of product or other substances into container.

Inactive ingredients

Alcohol, Aqua/Water/Eau, Butylene Glycol, Camellia Sinensis Leaf Extract, Gyceryl Laurate, Hamamelis Virginiana Water, PEG-40 Castor Oil, Sodium Phytate, Tromethamine

Notes: If contact with eyes occurs, flush out with plenty of water. This product is meant to be washed off quickly, not left on the skin for longer than a few seconds while cleansing. Prolonged exposure without rinsing immediately may cause irritation to skin. Stop use and consult your doctor in the unlikely event of discomfort or sensitivity. 1ST-TIME USERS: Some first-time users may experience an initial acne break-out due to the deeper exfoliation of the pores' inner walls. If your pores have not been regularly cleaned at this level, existing pore cloggers are brought to the surface. As therapy continues, this deeper-cleaned state is maintained and acne is markedly reduced. With correct use - following instructions carefully, the slow increase in application frequency, the use of hypoallergenic, non-comedogenic and pH-appropriate support products in the Id system - as well as prevention with non-comedogenic products such as Essence Skin-Saving Hair, Body + Bath Care, Armada Sun + Light Screens, Skintelligent Beauty Makeup, this initial reaction soon disappears. If it does occur, stop use for 1 week and restart therapy at the beginning, with 2x-a-week applications. CYSTIC ACNE can be internally caused. If you have cystic acne, consult your dermatologist as you may need additional medication and/or other

management.

visage et le corps - tonico
exfoliante anti-acne a base di acido
salicilico e monolaurina per viso e
corpo - tónico exfoliante para el
acné/foliculitis con ácido salicílico y
monolaurin para la cara y el cuerpo*

Brisk, deep-cleaning therapy. Beta-hydroxy
acid, an oil-soluble anti-acne micro-exfoliant
with skin-calming benefits, scours pores'
inner walls clean. Monolaurin, a coconut-
derivative, is clinically proven to be effective
against various organisms responsible for
certain acne types. For acne, ingrown hair,
"chicken skin," shaving / waxing bumps,
"sweat acne" and other types of folliculitis.

TO USE: See Drug Facts. **IMPORTANT:**
Start using 2x-a-week only, very
slowly increasing until 2x-a-day usage
(no earlier than week 8). DO NOT RUSH.
