READ AND UNDERSTAND ALL INSTRUCTIONS BEFORE USING THIS PRODUCT

FIRST AID

If in Eyes: Flush with water. Remove contact lenses, if present, after first 5 minutes. Then continue rinsing.

If Swallowed: Do not induce vomiting. Get immediate medical attention.

STORAGE AND HANDLING

THOROUGHLY RINSE ALL MEASURING DEVICES AND STORE OUT OF REACH OF CHILDREN. Avoid contact with food or feed. Avoid storing near heat or open flame. Keep from freezing. If product is frozen, thaw in warm room and mix well before using. Keep from exposing product to direct sunlight. Keep container tightly closed when not in use. Do not reuse empty container. Rinse empty container before disposing in a safe manner. Keep away from chlorine or chlorinated products.

CHEM-TREC EMERGENCY NUMBER 1-800-424-9300

Not for Human Use

Additional Information on Safety Data Sheet

GENERAL INSTRUCTIONS

- DeLaval **OceanBlu® Pre-Post** is a pre and post milking sanitizing teat dip that aids in reducing the spread of mastitis-causing organisms.
- Use DeLaval **Ocean Blu® Pre-Post** teat sanitizer at full strength. **Do not dilute.**
- Consult veterinarian before starting or continuing to use teat dip if cow's teats are sore or chapped.
- Thoroughly clean and sanitize teat dip cup before each milking.
- Use fresh teat dip for each milking. Dip solution should be changed if it becomes visibly dirty or if sediment is introduced. Do not pour used teat dip back into original container.
- Discard any teat sanitizing solution that becomes dirty or contaminated for any reason.
- Good dairy practices suggest the thorough cleaning and sanitizing of teats before milking to avoid contamination and assist in the control of mastitis.

PRE-DIPPING

- Remove excess organic debris and forestrip. (if water is used, use a minimal amount and dry thoroughly with clean, single-service paper towel before forestripping.)
- Dip, spray, or foam cow's teats with DeLaval **OceanBlu® Pre-Post**.
- Allow a 15 - 30 second contact time.
- Dry teats thoroughly with a clean, single-service paper towel or clean, dry towel.
- Attach milker unit.

POST-DIPPING

- Immediately after removing milking unit, dip or spray teats with DeLaval **OceanBlu® Pre-Post**. Do not wipe.
- If outside temperature is below freezing, allow DeLaval **OceanBlu® Pre-Post** to air-dry on cow's teats before cow is released outside; or allow teat dip to remain on teats for one minute, then dry teats with a single-service paper towel. Failure to follow these directions may result in frozen teats and injured animals.
