Disclaimer: This drug has not been found by FDA to be safe and effective, and this labeling has not been approved by FDA. For further information about unapproved drugs, click [here](#).

InstaMix™ Glycolic Concentrate

A glycolic concentrate designed for use with InstaMix™ G Emollient Concentrate using a DeLaval recommended on-site blending unit.

ACTIVE INGREDIENTS:

Glycolic Acid 15%

Emollient* 10%

*from Glycerin

KEEP OUT OF REACH OF CHILDREN

! CAUTION

READ AND UNDERSTAND ALL INSTRUCTIONS BEFORE USING THIS PRODUCT

InstaMix™ Glycolic Concentrate (Part A) is a glycolic concentrate exclusively designed for use in combination with **InstaMix™ G Emollient Concentrate (Part B)** for on-site blending/production of teat dips. To be blended with a DeLaval recommended on-site blending unit.

FIRST AID

Immediately call a poison control center or doctor/physician

Eye contact: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison control center or doctor/physician.

If on Skin: Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower. Wash contaminated clothing before reuse.

If Inhaled: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Immediately call a poison control center or doctor/physician.

If swallowed: Rinse mouth. Do not induce vomiting.

STORAGE AND DISPOSAL

Thoroughly rinse all measuring devices and store out of reach of children. Avoid contact with food or feed. Avoid storing near heat or open flame. Keep from freezing. If product is frozen, thaw in warm room and mix well before using. Store in a cool, dry space. Keep container tightly closed when not in use. Do not reuse empty container. Dispose of contents/container to an approved waste disposal plant.

Not For Human Use

Additional Information on Safety Data Sheet

GENERAL INSTRUCTIONS

- Do not use full-strength.
- Consult veterinarian before starting or continuing to use teat dip if cow's teats are sore or chapped.
- Do not use teat dip for cleaning and/or sanitizing of dairy equipment.
- Discard any teat sanitizing solution that becomes dirty or contaminated for any reason.
- Good dairy practices suggest the thorough cleaning and sanitizing of teats before milking to avoid contamination and assist in the control of mastitis.
- To be mixed with **InstaMix™ G Emollient Concentrate (Part B)** using a DeLaval recommended on-site blending unit. Can be diluted to create 6 formula options

USE DIRECTIONS

Pre-Dipping

- Remove excess organic debris and forestrip.
- Dip or spray cow's teats with properly diluted teat dip prepared with a DeLaval recommended on-site blending unit.
- Allow a 30 second contact time.
- Dry teats thoroughly with a clean, single-service paper towel.
- Attach milker unit.

Post-Dipping

- Immediately after removing the milker unit, dip or spray each teat with properly diluted teat dip prepared with a DeLaval recommended on-site blending unit.
- Before exposing cow's teats to below freezing temperatures, the teats should be thoroughly dry to reduce the potential of frostbite. Failure to follow these instructions may result in frozen teats and injured animals.

The product label for InstaMix Glycolic Concentrate (Part A) features a blue background with a central graphic of a teat dip. The DeLaval logo is at the top left. The product name 'InstaMix™ Glycolic Concentrate' is prominently displayed in the center. Below it, a description states it is a glycolic concentrate designed for use with InstaMix™ G Emollient Concentrate using a DeLaval recommended on-site blending unit. A Spanish translation of this description is provided below. The 'ACTIVE INGREDIENTS' section lists Glycolic Acid at 15% and Emollient* at 10%, with a note that the emollient is from Glycerin. On the right side, there are three circular icons labeled 'GLY', 'PART A', and 'NPE FREE Formula'. The product code '1157-A0121' is printed vertically on the right edge.
