Teat Shield Conditioning Barrier Dip

DIRECTIONS FOR USE:

- Use **Teat Shield** undiluted.
- Consult veterinarian before starting or continuing to use teat dip if cow's teats are sore or chapped.
- Store at room temperature.
- Protect from Freezing. If frozen, shake vigorously after thawing.
- Do not use **Teat Shield** for cleaning or sanitizing dairy equipment.
- Discard any **Teat Shield** solution that becomes dirty or contaminated for any reason.

DIRECTIONS for Post Dipping:

1. Immediately after removing inflations, dip the entire teat with **Teat Shield Conditioning Barrier Dip**.
2. Allow teats to air dry enabling dip to remain on teats for a prolonged period of time.
3. If outside temperature is below freezing, allow **Teat Shield** to air dry on the cow's teat or blot dry with a paper towel before cow is released outside. Failure to follow these directions may result in frozen teats and injured animals.
4. Replace dip solution when visibly cloudy or dirty.

FIRST AID:

EYES: If contact with eyes occurs, flush with plenty of cool water for 15 minutes. Consult a physician.
INTERNAL: May be harmful if swallowed. If ingested, drink large amounts of water. DO NOT induce vomiting. Drink large quantities of water. See physician immediately. Get medical attention immediately.

DAIRYLAND BRAND

TEAT SHIELD
CONDITIONING BARRIER DIP

This product, when properly used, is effective as an aid in reducing the spread of organisms which may cause mastitis.

ACTIVE INGREDIENT:

Iodine.....1.0%
Contains 10% Glycerin

Specially formulated for added protection and greater skin conditioning in muddy, wet conditions or inclement weather.

Forms a film on the teat to prolong protection against mastitis-causing pathogens.

Contains 10% Glycerin to keep teats soft and help prevent chapping in harsh weather.

KEEP OUT OF THE REACH OF CHILDREN

See side panel for Precautionary Statements.
