Ingrown Toenail Relief

Active ingredient

Sodium Sulfide 1%

Purpose

Ingrown Toenail Pain Reliever

Use

- for the temporary relief of pain and discomfort from ingrown toenails

For external use only.

Do not use

on open sores.

Ask a doctor before use if you have

- diabetes
- poor blood circulation
- gout

When using this product

- use with a retainer ring
- avoid contact with eyes. If product gets into the eye, flush with water for 15 minutes and get medical help right away.

Stop use and ask a doctor if

- redness or swelling of your toe increases
- discharge is present around the nail
- symptoms last more than 7 days or clear up and occur again within a few days

Keep out of reach of children

If swallowed, get medical help or contact a Poison Control Center right away.

Directions

adults and children 12 years and over:

- wash affected area and dry thoroughly
- place retainer ring on toe with slot over the area where the ingrown nail and the skin meet. Smooth ring down firmly
- cut open tip of the tube on score mark. Apply enough gel product to fill the slot in the ring. Immediately replace cap on tube
- place round center section of bandage directly over the gel-filled ring to seal the gel in place.

Smooth ends of bandage strips around toe

- repeat twice daily (morning and night) for up to 7 days until pain discomfort is relieved or until the nail can be lifted out of the nail groove and easily trimmed

Children under 12 years: ask a doctor

Other Information

- save carton for complete warnings and information
- keep tube tightly closed when not in use
- store between 68° and 77°F (20° and 25°C)

Inactive Ingredient

edetate disodium, hydroxyethyl cellulose, potassium acetate, water
