-----

Dental disease is the most common clinical condition occurring in both adult dogs and cats.

Chronic dental disease can cause more problems than tooth pain and bad breath. It is also associated with damage to our pets' internal organs as they age. The key to management of dental disease is prevention through routine dental care. Excellent oral health can be maintained with a consistent oral hygiene regimen.

### **INDICATIONS AND USAGE**

**DIRECTIONS:** Shake well before use. Add 1 teaspoon to approximately 1 quart (4 cups) of your pet's drinking water daily.

**INDICATIONS:** TrisDent™ is an appealing, beef-flavored, patent-pending combination of tromethamine, edetate disodium dihydrate and 0.12% chlorhexidine gluconate. These oral hygiene compounds help control plaque without brushing, as well as assist in reducing the calcification of plaque to calculus. TrisDent combines chlorhexidine, an effective anti-plaque agent, and Tris-Edta, a novel and unique compound which inhibits plaque, blocking its mineralization to calculus while enhancing the anti-plaque activity of chlorhexidine.

### **DESCRIPTION**

**ACTIVE INGREDIENT:** 0.12% Chlorhexidine Gluconate

**INACTIVE INGREDIENTS:** Water, Sorbitol, Glycerin, Tromethamine Hydrochloride, Tromethamine, Disodium EDTA, Sodium Benzoate, Beef Flavor

No Animal Protein

### **WARNINGS AND PRECAUTIONS**

**CAUTION:** Federal law restricts this drug to use by or on the order of a licensed veterinarian. Keep out of reach of children. Store at room temperature. For animal use only.

### **TrisDent™ Drinking Water Additive**

0.12% Chlorhexidine

Tromethamine

Edta

XYLITOL FREE

FOR DOGS & CATS

For Veterinary Use Only

Patent Pending

Net Contents: 16 fl. oz. (473 mL)

MADE IN USA

86002-106-16
