Drug Facts

API MAKES POND CARE EASIER

Helping pond owners maintain clean, clear water and healthy, active fish is our goal at API. Visit www.apifishcare.com for pond tips and an easy-to-use calculator to estimate the size of your pond for better, easier pond care.

WHY USE AMMO LOCK?

Detoxifies deadly ammonia produced by fish waste and uneaten food

Makes tap water safe for the pond by instantly neutralizing toxic chloramine and chlorine

Eliminates fish stress caused by ammonia

Promotes Healthy gill function

One dose of AMMO LOCK will neutralize 7.0 ppm of chlorine, 3.0 ppm of chloramines, and detoxify 7.0 ppm of ammonia.

DIRECTIONS

Use the dosing cap on the bottle. Add 25 ml (5 tsp.) of AMMO LOCK for every 100 U.S. gallons (378 L) of pond water.

TIP

Although ammonia test kits will show positive results for ammonia when using AMMO LOCK, the ammonia is in a non-toxic form.

AMMO LOCK will hold the ammonia in a non-toxic form until converted to non-toxic compounds by the natural activity of the pond filtration system.

CONTAINS:

No less than 17% Aliphatic Amine Salts.

If swallowed, immediately give 2 glasses of water and induce vomiting.

Call a physician.

In case of contact with skin and eyes, immediately flush with water for at least 15 minutes.

Call a physician.

Keep out of the reach of children.

Safe for fish and pond plants, as well as surrounding wildlife and pets, when used as directed.

For ornamental pond use only.
