-----

**Drug Facts**

**Active Ingredient**

250mg Piperazine base as Piperazine Citrate, per each teaspoon (5ml)

**Use**

Effective against large roundworms (Toxocara canis and toxoscaris leonina).

**Warnings**

Do not worm a kitten under six weeks of age. never worm a sick cat or kitten. Consult your veterinarian in the diagnosis, treatment and control of parasitism. Not recommended for cats under 2lbs of body weight. Not recommended for pregnant or nursing females. Pets over 1 year old should have a recent negative heartworm blood test before de-worming.

**Cautions**

Although piperazine has a high degree of safety, an occasional animal may show nausea, vomiting or muscular tremors. Such side effects are usually associated with over dosages: therefore the recommended dosage should be followed carefully. If symptoms occur, consult a veterinarian immediately. Keep closed when not in use. Keep this product out of reach of childre and pets to avoid unintended consumption.

**Directions**

Using the dosage cup enclosed, administer as follows:

Treatment should be given shortly after pet has eaten or with food. Dosage may be fed directly or added to food. For multiple pet households, feed directly to individual pet to ensure proper dosage. **Cats and kittens (6 weeks or older):** 1//2 tsp. per 5lbs. of body weight. After initial dose on day one, do not administer again until day 14. On day 14, repeat initial dose. Then administer every 30 days to prevent reinfestation.

**Other Information**

Store between 20C - 25C (68F-77F)

**Inactive Ingredients**

Caramel Color, Flavor, Glycerin, Methylparaben, Potassium Sorbate, sugar, Vanillin, Water.
