What is capsaicin? Capsaicin is a naturally occurring ingredient in chili peppers.

How does capsaicin work? Extract from the chili pepper plant has proven effective in decreasing intensity and blocking pain signals within the body. Blocking these pain signals can help to provide relief for common aches and pains, including minor backaches, arthritis, pains, strains and bruises.

Drug Facts

Active ingredient	Purpose
Capsaicin: 0.025%	Topical Analgesic

Uses: Temporary relief of minor pain associated with: ■ Arthritis ■ Minor backaches ■ Strains ■ Sprains ■ Bruises
