KEEP OUT OF REACH OF CHILDREN

NOT FOR HUMAN USE

Warning

Causes eye irritation.

Wash skin thoroughly after handling. Do not mix with bleach or other chlorinated products – will cause chlorine gas.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

Read Safety Data Sheet (SDS) before using this product.

FOR EMERGENCY MEDICAL INFORMATION IN USA OR CANADA, CALL: 1-800-328-0026.

FOR EMERGENCY MEDICAL INFORMATION WORLDWIDE, CALL: 1-651-222-5352 (IN THE USA).

DIRECTIONS FOR USE

Mix Directions: Measure equal volumes of Encore Barrier & Encore Activator RTU (ready-to-use) into clean containers. Mix until color is uniform. Mix a significant quantity for one milking and then discard the remainder.

IMPORTANT: Do not add mixed Encore Barrier & Encore Activator RTU to any other teat dip or other product. If transferred from this container to any other, make sure the other container is thoroughly pre-cleaned and bears the proper container labeling for Encore Barrier & Encore Activator RTU.

Use of a complete udder health program including both pre- and post-dipping may aid reducing the spread of organisms which cause mastitis.

Pre-Milking: Prepare teats prior to milking with appropriate pre-dip or udder wash. Teats should then be dried thoroughly with a single-service towel before attaching the milking unit.

Post-Milking: Immediately after milking, use Encore Barrier & Encore Activator RTU at full strength. Apply product to teats 2/3 their length in Encore Barrier & Encore Activator RTU teat dip. Allow to air dry. Do not wipe. Always use fresh, full-strength Encore Barrier & Encore Activator RTU teat dip. If the product in the teat dip cup becomes visibly dirty, discard and replenish with fresh product. Do not reuse or return unused product to the original container. Do not turn cows into freezing weather until Encore Barrier & Encore Activator RTU teat dip is completely dry.

NOTE: In case of irritation or chapping, have the condition examined and, if necessary,

treated by a veterinarian.

DIRECTIONS FOR USE

Mix Directions: Measure equal volumes of *Encore Barrier & Encore Activator* RTU (ready-to-use) into clean containers. Mix until color is uniform. Mix a significant quantity for one milking and then discard the remainder. **IMPORTANT:** Do not add mixed *Encore Barrier & Encore Activator* RTU to any other teat dip or other product. If transferred from this container to any other, make sure the other container is thoroughly pre-cleaned and bears the proper container labeling for *Encore Barrier & Encore Activator* RTU.

Use of a complete udder health program including both pre- and post-dipping may aid reducing the spread of organisms which cause mastitis.

Pre-Milking: Prepare teats prior to milking with appropriate pre-dip or udder wash. Teats should then be dried thoroughly with a single-service towel before attaching the milking unit.

Post-Milking: Immediately after milking, use *Encore Barrier & Encore Activator* RTU at full strength. Apply product to teats 2/3 their length in *Encore Barrier & Encore Activator* RTU test dip. Allow to air dry. Do not wipe. Always use fresh, full-strength *Encore Barrier & Encore Activator* RTU test dip. If the product in the test dip cup becomes visibly dirty, discard and replenish with fresh product. Do not reuse or return unused product to the original container. Do not turn cows into freezing weather until *Encore Barrier & Encore Activator* RTU test dip is completely dry.

NOTE: In case of irritation or chapping, have the condition examined and, if necessary, treated by a veterinarian.

MANTÉNGALO ALEJADO DEL ALCANCE DE LOS NIÑOS
NO ES PARA USO HUMANO

Atención

Provoca irritación ocular.

Lave la piel minuciosamente después del manejo. No se mezcle con el blanqueo o otros productos tratados con cloro - causará el gas de cloro.

EN CASO DE CONTACTO CON LOS OJOS: Enjuagar con agua cuidadosamente durante varios minutos. Quitar las lentes de contacto cuando estén presentes y pueda hacerse con facilidad. Proseguir con el lavado. Si la irritación ocular persiste, consultar a un médico.

Lea la Ficha de Datos de Seguridad antes de usar el producto.

PARA INFORMACION MEDICA DE EMERGENCIA EN LOS EE.UU. O CANADA, LLAME AL 1-800-328-0026.

PARA INFORMACION MEDICA DE EMERGENCIA EN EL MUNDO ENTERO, LLAME AL 1-651-222-5352 (EN LOS EE.UU.).

INSTRUCCIONES DE USO

Mezcle: Mida las cantidades iguales de *Encore Barrier & Encore Activator* RTU (listo para usarse) en unos recipientes limpios. Mezcle hasta que el color se vea uniforme. Mezcle una cantidad apropiada para una ordeña y luego, tire el resto.

IMPORTANTE: No agregue *Encore Barrier & Encore Activator* RTU a ningún otro sellador de pezones o a otros productos. Si lo transfiere de este recipiente a otro, verifique que el otro esté minuciosamente limpio y que tenga la etiqueta de *Encore Barrier & Encore Activator* RTU.

El uso de un programa completo para el cuidado de ubres incluyendo el pre y postsellado puede reducir la diseminación de organismos que causan la mastitis.

Pre-Ordeña: Antes de ordeñar, prepare los pezones con el pre-sellado adecuado o con un lavado de ubres. Antes de colocar la unidad ordeñadora, seque completamente los pezones utilizando una toalla desechable.

Post-Ordeña: Inmediatamente después de la ordeña, use *Encore Barrier & Encore Activator* RTU sin diluir. Aplique el producto sumergiendo las 2/3 partes de los pezones en el sellador de pezones *Encore Barrier & Encore Activator* RTU. Deje secar al aire. No lo limpie. Siempre use el sellador de pezones *Encore Barrier & Encore Activator* RTU cuando está fresco y sin diluir. Si el producto en la copa de sellado se ve sucio, tirelo y vuelva a llenar con producto fresco. No vuelva a usar el producto residual ni lo devuelva al recipiente original. No saque las vacas a la intemperie helada hasta que el sellador de pezones *Encore Barrier & Encore Activator* RTU se haya secado completamente.

NOTA: En caso de irritación o agrietamiento, consulte con un médico veterinario para que examine o trate el caso.
