Active ingredient (In Each Tablet)

Bismuth subsalicylate 262 mg (each tablet contains 102 mg salicylate)

Purpose

Antidiarrheal/Antacid

Use

temporarily relieves:

- controls diarrhea
- relieves heartburn, indigestion, nausea and upset stomach without constipating

Warnings

Reye's Syndrome

Children and teenagers who have or are recovering from chicken pox or flu-like symptoms should not use this product. When using this product, if changes in behavior with nausea and vomiting occur, consult a doctor because these symptoms could be an early sign of Reye's Syndrome, a rare but serious illness.

Allergy Warning

Contains salicylate. Do not take if you are:

- allergic to salicylates (including aspirin)
- taking other salicylate products

Do not use if you have

- bloody or black stool
- an ulcer
- a bleeding problem

Ask a doctor before use if you have

- fever
- mucus in the stool

Ask a doctor or pharmacist before use if you are taking a prescription drug for:

- anticoagulation (thinning of the blood)

- diabetes
- gout
- arthritis

Stop use and ask a doctor if

- symptoms get worse
- ringing in the ears or loss of hearing occurs
- diarrhea lasts more than two days

When using this product: a temporary, but harmless darkening of the stool and/or tongue may occur.

If pregnant or breast-feeding, ask a health professional before use.

Keep out of reach of children. In case of accidental overdose, contact a doctor or Poison Control Center right away.

Directions

- do not use more than directed
- chew or dissolve in mouth
- use until diarrhea stops but not more than 2 days
- drink plenty of clear fluids to help prevent dehydration, which may accompany diarrhea
